The **European Commission** and the **Fundació Mies van der Rohe** are happy to invite you to the second “**Shaping European Cities**” debate, to be held this year as a collateral event of the 15th International Architecture Exhibition – La Biennale di Venezia.

The debate will focus on “**Urban confrontation, democracy and identity**” and gather relevant stakeholders to discuss the following two themes:

Contemporary architecture and cultural heritage
Public space as a resource for cities

The debate will be followed by the first **Young Talent Architecture Award** (YTAA) ceremony, which will highlight the best three diploma projects of the 2015-2016 academic year in Europe with a view to bringing the academic and professional realms closer together.

The event will take place on 28 October 2016 (2-6 pm) at the Teatro Piccolo Arsenale and will be open to everybody who is interested in the architecture profession, its pluridisciplinarity and the dialogue between architects, policy-makers, students and representatives from other sectors.

The online registration website will be opened mid-August at: www.shapingeuropeancities.eu

Requests for information can in the meantime be addressed to: shapingeuropeancities@teamwork.fr
